MEMORANDUM FOR: Director of Data Processing

25X1A

FROM:

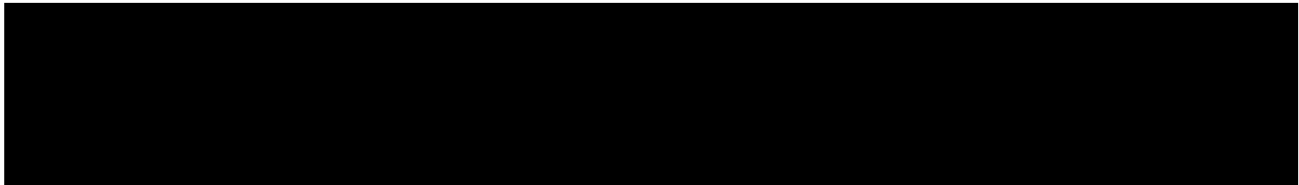

Director of Communications

SUBJECT: OC Use of Delta Data 7260T Overseas (C)

1. We have determined that the provision of automation assistance to OC Area Headquarters [redacted] would prove most beneficial. We have also determined that the Delta Data 7260T (DD7260) would be the most effective means of providing that assistance. In addition to the direct benefits derived by OC, early introduction of the DD7260 overseas will better prepare OC personnel to support later CRAFT and CLASS A installations. (C) A9c4.1

greatest need and are willing to devote the necessary time to the task. In fact, they have already requested permission to begin automation efforts using other equipment. Rather than use non-standard equipment, we are withholding permission until such time as a decision can be made regarding the availability of DD7260s. (C) A9c4.1

25X1A

3. Since the provision of automation assistance to OC Area Headquarters [redacted] is a new requirement that has only become feasible with the advent of the TEMPEST approved DD7260, OC has not programmed any funds or PRA for this project. Therefore, any assistance your office can provide would be greatly appreciated. (C) A9c5.2
